ANUTEC- International FoodTec India
PackEx India
Food Logistics India
Anutec Ingredients India

Largest Congregation of the Food and Drink Industry in SAARC region to meet at one place

Come this September witness India's No#1 supplier fair for the Food & Drink processing and packaging industry - ANUTEC- International FoodTec India and PackEx India.

With a successful history of 12 remarkable years, ANUTEC- International FoodTec India and PackEx India is once again back to Mumbai and is all set to showcase new innovations in the field of Food, Drink & Packaging Technology, Equipment & Supplies.

The Indian food industry is poised for huge growth, increasing its contribution to world food trade every year and offering an immense employment generation opportunity. Availability of raw materials, changing lifestyles and relaxation in policies have given a considerable push to the industry's growth. This sector is among the few that serves as a vital link and provides synergy between the two pillars of our economy, industry and agriculture.

The industry is witnessing significant reforms by the Government of India and several state governments offering 100 percent FDI under government approval route for trading, including through e-commerce, in respect of food products manufactured or produced in India; enhanced investment in the food processing sector; proactive steps simplifying 'ease of doing business', delisting of horticulture crops, exemption & reduction of excise duty for dairy, food processing and packaging machineries, establishment of new cold chain projects, food parks, food testing labs and fiscal relief, insurance schemes to support the vulnerable farmers and farm products which shall make this sector more competitive, market oriented and a step closer to achieve nation's Food security. Inline with these objectives ANUTEC- International FoodTec India and PackEx India 2018 scheduled during September 27-29, 2018, has been aptly positioned to kick start new business opportunities to ensure sustainable growth in the food processing and packaging sector in India.
